Suggested new blazon, Per chevron inverted argent and sable, a bow fracted counter changed.

*No conflict was found on the name however we feel the documentation is weak and we will pend this submission at the Kingdom level for further documentation. The Device would have to be pended based on the name not being forwarded however we have RETURNED the device as it is in violation of RFS. VII.6 the charge item is not easily duplicated and we could find no period item of this sort to draw upon for reference. It is our suggestion the Submitter redraw this item and blazon it as a Masonry Arch upon a Masonry Base and draw it much larger over the area of the field. This Masonry treatment should satisfy the submitters need for the look of a broken arch and bar.

5. Lachlan MacLean (New Name, New Device)

Azure, an orle Or, Six Daggers proper conjoined at the hilts.

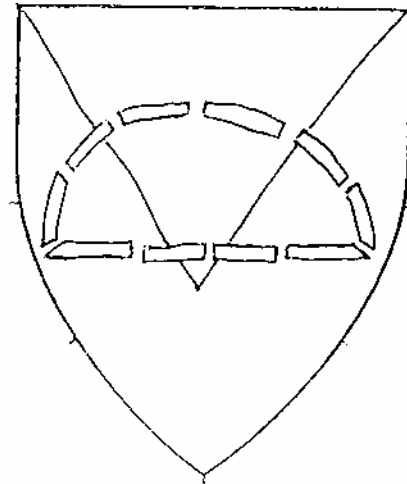

Not sure of blazon. Is there a “proper” dagger? Pended from previous month omission of name documentation.

-Black p536 under MacLean dates Lachlan McGilleon to 1436.
 MacLean –Scots byname
 -Black p536 under MacLean dates byname spelling MacLein to 1536, “MacCleane” to 1615, MacLane to 1545, M°Cleane to 1615
 -submitter will not accepted major or minor changes to the name.

*No conflicts found on the name and all documentation is in order and well done.. Pass up to Laurel.. The Device does not appear to conflict and though we feel the swords need to be drawn bigger and bolder to fill more of the area allowed of the field we will Pass this up to Laurel.
